

**Ministry of Manpower (MOM) IT Plan and FY15 Procurement**

The Industry Briefing (IB) is an annual event organised by IDA to share government ICT strategies and plans.

Chai Ming Yao, Deputy Director (Applications) from MOM's Information Systems and Technology Department, shared about MOM's IT strategies and FY15 procurement plans at the event.

He highlighted that MOM would be looking at skills, solutions and experiences in the following areas: User Experience Design, Agile, automated testing, data management and analytics, drones and Internet of Things.

The highlighted key MOM procurement items for FY15 are

Project	Description	Estimated value*
Work Pass Integrated System (WINS) Phase 2 and 3	This is the next generation work pass system which covers all work pass types except for Foreign Domestic Worker (FDW). Phase 1 covering FDW is currently in implementation stage.	> \$50m
Licensing System for Employment Agencies and Dormitories	This system is needed to process and manage licenses for Employment Agencies and Dormitories to support the Employment Agencies and Foreign Employee Dormitories Bill.	> \$5m
Finance and Procurement Tracking System	This system is to be developed to support MOM Finance and Procurement Officers and will interface with the whole of government finance system.	> \$1m

\*The estimated procurement values provided are for multiple years over the lifespan of the project.
